

Statement of Intent (updated): An SDG Alliance - a collaboration for a better future

This Aotearoa SDG Alliance will be responsive to Te Tiriti o Waitangi.

We will bring together people and organisations across society who are committed to meeting the goals and aspirations of the 2030 Agenda for Sustainable Development.

We will do this by:

1. Working within a Te Tiriti Relationship Framework that reflects a true partnership between Tangata Whenua and Tangata Tiriti
2. Sharing of information, experiences, resources and good practices from within Aotearoa and abroad
3. Coordinating and aligning of activities within and across sectors and therefore sharing a joined-up approach
4. Bringing together a collective voice on issues of our time
5. Fostering an understanding of and increased commitment to achieving sustainability through a Te Ao Māori lens
6. Accelerating change
7. Increasing meaningful collaboration within and across sectors, generations and populations
8. Monitoring and reporting on the progress of our society's efforts and of our contributions domestically and globally.

This will contribute to realising the vision of the 2030 Agenda and Sustainable Development Goals both at home and abroad - "a more sustainable planet where no-one is left behind".

The Alliance members will determine how its deliverables are achieved under a Te Tiriti Relationship framework.

This Statement of Intent was developed in partnership with the Waikato Wellbeing Project, the New Zealand Coalition to End Homelessness, and Te Puna Oranga ō Ōtāki and updated following input received during our workshops in June. Further updates are possible.
